

Medications may have a high risk of side effects or an adverse event when taken above the recommended FDA amount. To promote safe and appropriate use of such medications, BeneCard PBF has limits for how much medication can be obtained within a specific time period. If a member requires quantities above the recommended amounts, a clinical review is required to obtain an override of the limitation in writing from the patient's physician, explaining the medical justifications for doses above the recommended FDA guidelines. The safety of each member is extremely important, and quantity management is an integral part of every program to ensure safe and appropriate use of these products.

Drug Name	Generic Drug Name	Generic Product Identifier	Quantity	Day Supply
ABILIFY	Aripiprazole Oral Solution 1 MG/ML	59250015002020	750	30
